

Tyler & Jenni

Hello

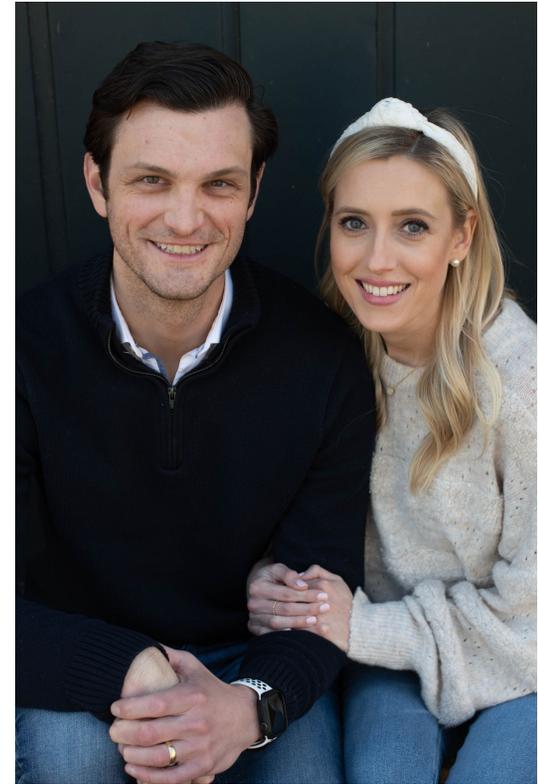

We hope this letter finds you well, and we want you to know that we've been praying for you. While this may be a very difficult time for you, we want to honor your courage and bravery in considering adoption for your child.

Jenni and I currently live in Lexington, Kentucky and have been married for 5 years. We met in Miami, Florida after a mutual friend introduced us to one another. Jenni works as a high school teacher, and I'm currently in my final year of Orthopaedic Surgery residency. Lexington has been an amazing place for our small family, but our family's growth has been slower than expected. We both wanted to grow our family through the process of adoption, even before we ever met. While we knew adoption would be a part of our story, 4 years of infertility has given us a desire to build our family through adoption sooner than anticipated. We both long to be parents and to welcome children into our home! We are so excited to become parents one day and hope to have a family of 3-4 children.

Jenni and I enjoy so many things. We are actively involved in our church community and faith is a large part of our lives. We love going for hikes in Kentucky, visiting the Florida Keys and the coast of Maine with our extended families. We enjoy paddle boarding and snorkeling. We love game nights with friends, comfy Friday nights watching movies, and playing with our puppy, Bella. Bella is a 9 pound Maltipoo with a personality much larger than her body. She loves cuddles and children and she would be a great big sister.

We have a great relationship with our extended family on both sides. Both of our families live in Miami and are excited to have more grandchildren to love! We talk to them frequently and are eager to move closer to our parents, siblings, and other extended family in the next 2-3 years. Our families love big family dinners, weekend days on the boat, time swimming in the pool, and relaxing moments around bonfires.

We know that this may be a difficult time for you. We care deeply for you and are here to help in any way we can. We will continue to pray for you and care for you whatever you decide.

Tyler & Jenni

Our Story

Tyler and I met in 2015 through mutual friends at our church in Miami. He was in medical school and I was teaching biology at a local high school. We realized early on that we have a lot of things in common like our love of science, healthy living, family and faith. After just nine months of dating, Tyler proposed! He surprised me with a helicopter ride and he proposed when we landed. I felt like I was on the tv show, The Bachelor! After he proposed, our families met us to celebrate! Soon into marriage, we decided to start a family but month after month, it didn't happen. We tried a few fertility procedures but realized we would rather adopt than continue on with more procedures. Adoption has always been one way we wanted to grow our family and we are so excited to be able to do it now! We trust that the Lord will bring us the right birth family and baby for us and we look forward to seeing how our family grows!

Meet Tyler

Tyler grew up in Miami, Florida and loves being near the water. He is the only boy in a family with three sisters. Growing up, he played multiple sports including soccer, baseball, football, and golf. In addition to organized sports, he loves outdoor adventures such as rock climbing, snorkeling, spear fishing, paddle boarding and kayaking. Despite growing up near the ocean, he's not a very good fisherman! He is a great chef and enjoys cooking the vegetables and fruit that he grows in his garden.

Tyler went to college at the University of Virginia, medical school at Florida International University and is nearing the end of his orthopedic surgery residency at the University of Kentucky. He is excited to join his dad's surgical practice as a third generation surgeon. Tyler is kind and compassionate, he is a great teacher and friend and makes everyone feel at home from the moment they meet him. He is a devoted husband, friend, brother, and son, and he will be an incredible dad!

Meet Jenni

Jenni was born and raised in Miami, Florida and loves the Florida sunshine! She earned her degree in Biology from Florida State University and began her career as a high school science teacher. Before we met, Jenni took a break from teaching for one year and moved to Paris, France where she worked with a Christian nonprofit organization. While in France, she worked with college students helping them start Christian clubs on their campus and grow in their personal relationships with Jesus.

Jenni currently has a job she loves! She is working with high school students as a Science Interventionist, which means that she works with small groups of students to help them understand science content, get good grades and graduate! Jenni's favorite part of her job is getting to know her students and encouraging them to dream big and go after their goals in life! Jenni is gifted with the ability to relate to students of all backgrounds and help them grow in self confidence and see their worth! Jenni's love for others and her compassion shines through her. She is going to be an amazing mom!

3. Cooking and eating healthy are important to both of us. We make a lot of healthy meals at home and enjoy cooking.
4. Paddleboarding is one of her favorite hobbies! We love paddleboarding in the Florida Keys where we can see interesting sea creatures.
5. Jenni loves to dress up! We dressed up as the Incredibles for a costume party.
6. Out on the boat with Jenni's sister, Kristin, and her husband, Mike.

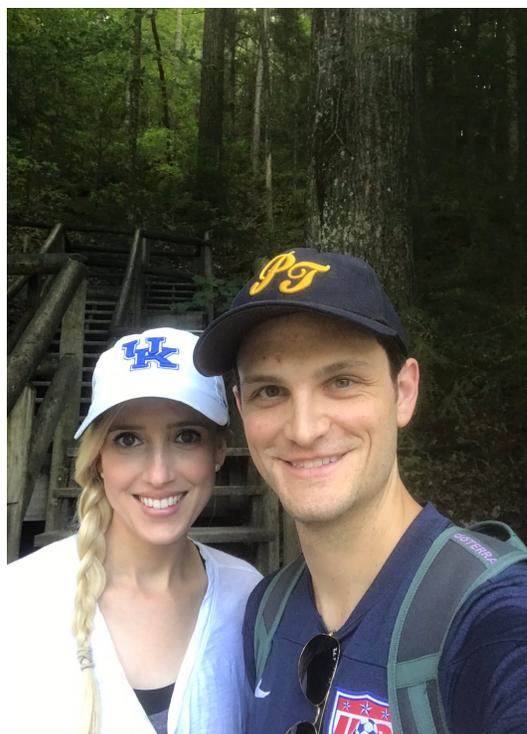

Our adventures

Tyler's family recently bought a home in Maine where we have had a few family vacations and plan to have many more. In Maine, we love to go hiking, climb on the rocks during low tide, build bonfires, play corn hole, go on walks, grill and cook, and relax with a good book by the water. We look forward to taking our children on memorable adventures in Maine with their many cousins!

We love being on the water and spending time in the Florida Keys. Both of us grew up taking trips to the Florida Keys as it is just an hour car ride from Miami. We plan to have many vacations in the Keys with our children and plan to snorkel, swim, and feed the fish at Robbie's!

While living in Kentucky, we have grown to love hiking and exploring! Every fall we pick apples at a local orchard and Tyler finds many treats to take home!

This is Home

Having a home that is cozy, clean and nicely decorated is important to us. We love spending time at home watching tv, cooking meals and working out. We often have friends over for game nights and movie nights. Every summer Tyler grows a garden in our backyard and we have quite a bit of produce!

We are so excited to make memories with our children at home! Our child will have their own bedroom and bathroom that is close to ours and decorated so cute! Jenni is already dreaming of how to decorate the nursery!

Christmas

Our parents live just 10 minutes from each other in Miami, Florida, which makes holidays very easy for us! We are able to spend time with both sides of our family and enjoy our traditions. Some of Tyler's family traditions are baking cookies with his grandmother, wearing matching pajamas on Christmas morning and singing carols! Jenni's family attends a yearly Christmas Eve party, attends church, and has Christmas dinner together.

Friends

Since we live far from family, our friends are our family here in Lexington. We spend a lot of time with Tyler's coworkers and their families.

Openness to birth parents: Depending on your comfort level, we would love to keep an open relationship with you.

However, we will respect your privacy and will honor any decision you make, whether that is little or no contact, occasional letters and photos, or welcoming you into our fun, incredible extended family.

Childcare plans: Jenni plans to stay home with our child. We also plan to move back to Miami in 2-3 years where we will be surrounded by both sides of our family. They are very excited to help with childcare as well.

Thank you!

Thank you for taking the time to look through our book. We hope that you were able to get a glimpse of who we are and what kind of parents we will be.

We know this is a difficult decision for you and want to remind you that we are praying for you! You and your baby are so loved by God and He has a wonderful plan for both of you.

Jeremiah 29:11 - For I know the plans I have for you," declares the Lord, "plans to prosper you and not to harm you, plans to give you hope and a future.
