

KYLE + ASHLYNNE

# 2100265

# HELLO

Hello, and thank you for taking a moment to learn about us. Our names are Ashlynnne and Kyle, and we are truly honored that you are considering our family as you explore an adoption plan for this baby.

We can only imagine how much courage, love, and strength it takes to be where you are right now. While we may not fully understand everything you are feeling, we want you to know how deeply we respect you and the love you already have for this child. We believe God sees your heart and is walking with you through every step of this journey. A little about us—we are best friends who support one another wholeheartedly and strive to live our lives with faith, kindness, and gratitude. Becoming parents has been a dream we have prayed over, and we truly believe God has led us to adoption and prepared our hearts to love a child unconditionally. If chosen to parent your child, we promise to raise them in a home grounded in love, faith, honesty, and compassion. We will teach them about God's love, encourage their dreams, and provide a safe and nurturing place where they can grow. We are committed to honoring their adoption story and always speaking of you with respect and gratitude. No matter where your journey leads, we pray that you feel peace, comfort, and guidance as you make the decision that is best for you and your baby. Thank you for allowing us to share our hearts with you. We would forever hold you in our prayers and in a special place in our hearts.

With love and gratitude,

KYLE +  
ASHLYNNNE

## OUR STORY

Our small town has always felt like home to us. It's a small agricultural community where we both grew up and where we now live surrounded by close family. Many of our siblings, grandparents, aunts, uncles, and cousins live nearby, and family is a big part of our everyday life.

Kyle was raised farming alongside his family, while Ashlynn grew up helping in her family's small restaurant—experiences that shaped our strong work ethic and appreciation for community. Kyle continues to farm and runs a small agricultural equipment business we purchased in 2020. After teaching high school math for seven years, Ashlynn joined him in the business two years ago.

We both enjoy staying active and giving back as coaches at local schools—Kyle in wrestling and Ashlynn in basketball. Encouraging kids and setting positive examples brings us great joy. As we look ahead, we feel ready and excited to grow our family and welcome a child into a home filled with love, faith, laughter, and a strong sense of belonging.

## MEET ASHLYNNNE

I grew up in Colorado with a single mom who had four children. She worked incredibly hard to get us what we needed, and taught us plenty about work and life. My siblings and I are still close. I attended a small school outside of town where I graduated with big dreams of leaving and never coming back. That changed when I came home for my younger brother's graduation and met Kyle. Never say never! I enjoy reading, planning trips when we can, and staying active. Every month I attend a book club that I look forward to. In the summer time I love to golf. That doesn't mean I'm very good at it, but I find it fun. I enjoy art, but don't practice it as much as I'd like. I coach basketball at the high school I graduated from after becoming a teacher there. Again, never say never!

I believe that God put us here to help others, do good deeds, and accomplish what we can through creativity, dreams, goals, and hard work.

## FUN FACTS

I love hanging out with my nieces and nephews.

I enjoy those super cheesy Hallmark movies, even with the bad acting.

Golfing is my favorite thing to do when the weather is nice.

I am in a book club, and have yearly reading goal.

I could eat Mexican food every meal for the rest of my life.

## WHAT KYLE LOVES ABOUT ASHLYNNE

She is the kindest person I have ever met. She doesn't like drama and always stays relaxed when times get tense. She always does the good things even if it means more work for her. She has a very close bond with all our little nieces and nephews and it warms my heart. She is pretty laid back and always finds time to spend with family.

# MEET KYLE

I am an identical twin and also have two younger sisters. My dad was a hardworking farmer who lived in a very small community, while my mom lived in Pueblo, Colorado, which is a fairly large city. Growing up, we shared our time fairly evenly between both of our parents, but I especially loved working and playing on the farm. My mother was full of love and would do anything for us. We lived in a small home and drove an old car, but we always felt cared for. My dad believed strongly in teaching us the value of hard work. In eighth grade I joined the wrestling team and quickly grew to love the sport. Throughout high school I worked hard and learned many important lessons through wrestling. I now coach wrestling at all ages and serve as president of the Yuma Wrestling Club. I love teaching kids life lessons and watching them grow into strong, kind people. After high school, work became a passion of mine and I learned many different trades. I run a small agricultural equipment business and farm. One of the greatest and most unexpected blessings in my life was meeting my wife, Ashlynn. I fell in love with her very quickly and could not imagine life without her. Above all, I am a faithful Christian and believe that God and Jesus should come before all else.

## FUN FACTS

I enjoy intense exercise and extreme sports.

I can juggle and ride a unicycle.

At work I design things on the computer then go build them in the shop.

I started the high school girls wrestling team in the town we live in.

I love animals.

I bring a lot of energy into everything I do.

## WHAT ASHLYNNE LOVES ABOUT KYLE

---

Kyle is truly the most generous person I know. He cares so much about the kids he coaches, about family, and about the people he works with. He never says no when someone needs his help. He loves God and has grown in faith so much since I've known him. He's a wonderful husband that thinks about me when he makes his decisions. He works incredibly hard to achieve his goals at work and in his personal life. He's smart and creative. He can fix just about anything. He's not afraid to take some risks, or support me or my ideas. He likes to make people laugh and he's good at it.

WELCOME TO

# OUR LITTLE WORLD

At the Farm

Summer Nights

Harvest Time

At the Field

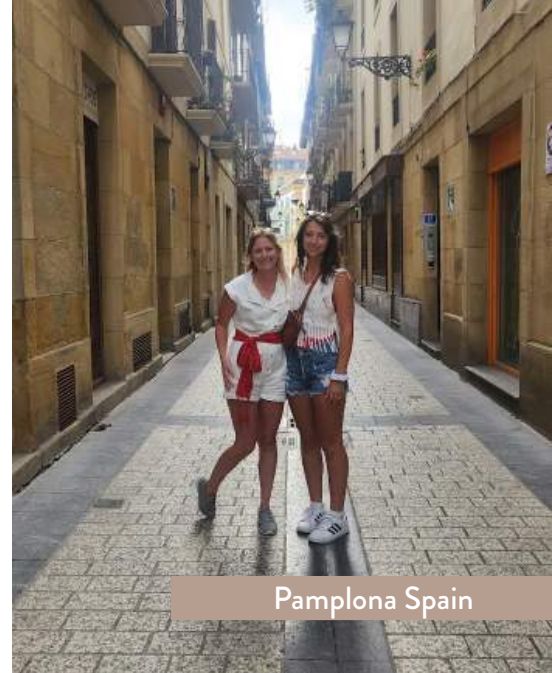

We live in Northeastern Colorado in a small town. We live in a cozy home only blocks away from different family members. Because of its small size and rural location, it's a safe community where kids can grow up safely. If you go to the grocery store, you will run into people you know, or people who know you by who your parents are. There is a lot of town pride, and people do rally together to help those who come across hard times. Our shop is across town, which isn't far. This is where we have our business and keep our farming equipment. During the year there are many high school kids that come help work and learn in the shop and on the farm. There are a couple of local schools and many churches. The parks are at a walkable distance and the streets are traffic free. The town is surrounded by miles and miles of farmland and pastures, which gives us a sense of freedom and space. It can also be beautiful.

## MEET STICKER

We have a small dog named Sticker that we love. He is a young energetic shih-tzu. Kyle found him in rough shape a couple years ago on a trip to California and brought him home. He is very friendly towards anyone he meets. He loves going on walks and is always ready by the door to go on a car ride to visit somewhere new. He's lucky he is cute because he does not listen when he needs to, especially when distracted by a cat or squirrel. He's a little mischievous, but he brings us joy.

## EXTENDED FAMILY

Almost all of our extended family lives in Colorado, whether right here in our town with us or within two hours from us. For example, Kyle's twin brother and his family lives right down the road! We spend a lot of time with those that are here, and do our best to see everyone else as much as we can with being a couple hours apart.

We are very fortunate to be in an area with family members and to have good relationships with them. We see family frequently, and they would be a large part of our child's life. Holidays are filled with family gatherings and good food. On Thanksgiving we gather and if the weather is nice enough, everyone gets to take a little airplane ride taking off right from the dirt road!

# FAMILY VALUES

Our family is rooted in faith, love, and gratitude. We strive to follow Jesus Christ in our daily lives, letting His example guide how we treat others—with kindness, respect, and compassion. Family is at the heart of everything we do, and we believe in supporting one another through every season of life. We feel deeply blessed for the place we call home and the opportunities it provides, and we believe in working hard to achieve our goals while appreciating the journey along the way. We also value caring for the bodies and lives we've been given by staying active, eating well, and making healthy choices. We aim to create a home filled with encouragement, integrity, and love, where everyone feels valued and supported.

# HOBBIES + FUN

As a couple we love to travel. We try to get one trip each year to somewhere new. We have visited some unforgettable places and have many great memories from them, including getting engaged in London, and married in Jamaica.

Kyle likes to build and create in his metal shop. Ashlynn loves a good book, golfing in the summers, and is working on getting her pilot's license. Coaching takes up a lot of our winters and work and farming take up a majority of the remaining year.

When we aren't busy at work or on a trip we are definitely homebodies. This is where we workout, hang out with our dog, and take time to relax. We are competitive and like to beat each other at board games and chess. We are working towards moving into a different house that we are currently fixing up, so house projects also take our time.

## PARENTING + ADOPTION

We believe that we can provide a home that children can grow in and feel safe and loved. We want to raise children to become good people, who want to help others and are confident in themselves and God's love for them.

We picture fun and chaotic birthday parties, sitting at the table to do homework after school, trying our best to make sure they are eating their vegetables, helping with class holiday parties, going to practices and games, church on the weekends, and teaching them how to farm and build a life. Childhood should be full of play, fun, innocence, learning, and happy memories.

We believe that it is very important for the child to keep healthy and loving relationships with you and their birth family, and to know where they came from and everyone who loves them.

**Blonde**

Eye Color:  
**Blue**

Height:  
**5' 9"**

Date of marriage: 01/17/20

Children: None

**Interest and hobbies:** We enjoy playing cards and board games together and with family. Traveling to new destinations is always something we look forward to. Coaching young men and women and kids of all ages in basketball and wrestling takes a good amount of our time. We want to help youth in our community grow and thrive. We like to work out together in our small home gym. Our christian faith is very important. We also enjoy working together on big projects at work for customers.

**Home:** We live in a peaceful neighborhood on a quiet corner lot, in a cozy three-bedroom, two-bathroom home. It's a warm and welcoming space with plenty of room to grow our family. We've built strong relationships with our neighbors and feel lucky to be surrounded by such a friendly community. Several kids live nearby, and it's common to see them riding bikes or walking their dogs to the park down the street. One of our favorite things is being just a short drive from family, so it's easy to share dinners, celebrate milestones, and spend quality time together during the week.

**Pets:** We adore our sweet dog, Sticker. He's a four year old shih-tzu with a friendly personality and a big heart. Sticker has never met a stranger—he's always excited to greet new people with a wagging tail and a couple of kisses. He thinks he's tough when he sees a cat, or chases a squirrel, although he's never caught one. He's been around many small children and loves being part of the action. One of his favorite parts of the day is going on walks, where he gets to explore the neighborhood and say hello to (bark obnoxiously at) his furry friends.

**Why are you interested in building your family through adoption:** When we learned that we could not have biological children, we prayed and took time to decide the path forward, and that path was adoption. We want a big family and see ourselves continuing to grow it through foster and adoption.

**Openness to birthparent(s):** We have spent a lot of time praying and reflecting on what openness could look like in our adoption journey. We truly believe God can work beautifully through connection, and it is very important to us that you would always feel valued and respected as an important part of your child's story. We would love to share regular updates through photos, letters, calls, or emails as your child grows. We are also open to in-person visits for meaningful milestones, if that feels right for everyone. Our hope is to build a relationship rooted in trust, grace, and mutual care. We believe this kind of openness can be a blessing — giving your child the gift of understanding where they come from and knowing how deeply they are loved by all of us. We are committed to approaching this journey with open hearts, flexibility, and prayer, always keeping the child's best interest at the center of every decision.

**Childcare plans:** Ashlynnne will be the primary caregiver for the child. Because we are self employed, we have the flexibility traditional jobs don't have, and the capability to bring the child to the office or farm with us. Whenever we need a babysitter, we have Ashlynnne's mother and other family members including aunts, uncles, and cousins close by.

Thank you for taking the time to look through our profile book and consider us as potential parents for your child. We can only imagine how much thought, care, and courage it takes to even begin this process, and we are deeply grateful that you would allow us to share our story with you.

If we are blessed with the opportunity to parent your child, please know this: your child would be cherished beyond measure. We would raise them in a home filled with unconditional love, laughter, prayer, and encouragement. We would remind them every day that they are fearfully and wonderfully made, created with purpose, and deeply loved — not only by us, but by you. We would honor your courage and the love that brought them into this world.

Our promise would be to nurture their heart, guide their faith, celebrate who they are, and support the unique gifts God has placed within them. We would create a home where they feel safe, seen, and treasured — where bedtime prayers, family traditions, and everyday moments become the foundation of a life rooted in love.

We respect the strength it takes to explore your options and to make decisions rooted in love. No matter where your journey leads, we hope you feel supported and surrounded by care. Thank you again for your time, your openness, and your consideration. We are holding you in our thoughts and prayers and wishing you peace and clarity as you move forward.
