Hello!

We are Dustin and Kaylee

We understand that you are facing an incredibly difficult decision, and we want to acknowledge the strength and courage it takes to consider all options for your child's future. **We respect whatever decision you make, and we want you to know that we are here to support you as you navigate this journey.**

We understand that reviewing adoption profiles is part of your process in learning about adoption as a potential path for your child, and we admire the thoughtfulness you are putting into this important decision.

No matter what, we wish you peace and comfort as you move forward.

IN JAMAICA

We value and believe in hard work, honesty, integrity, humbleness, and respect.

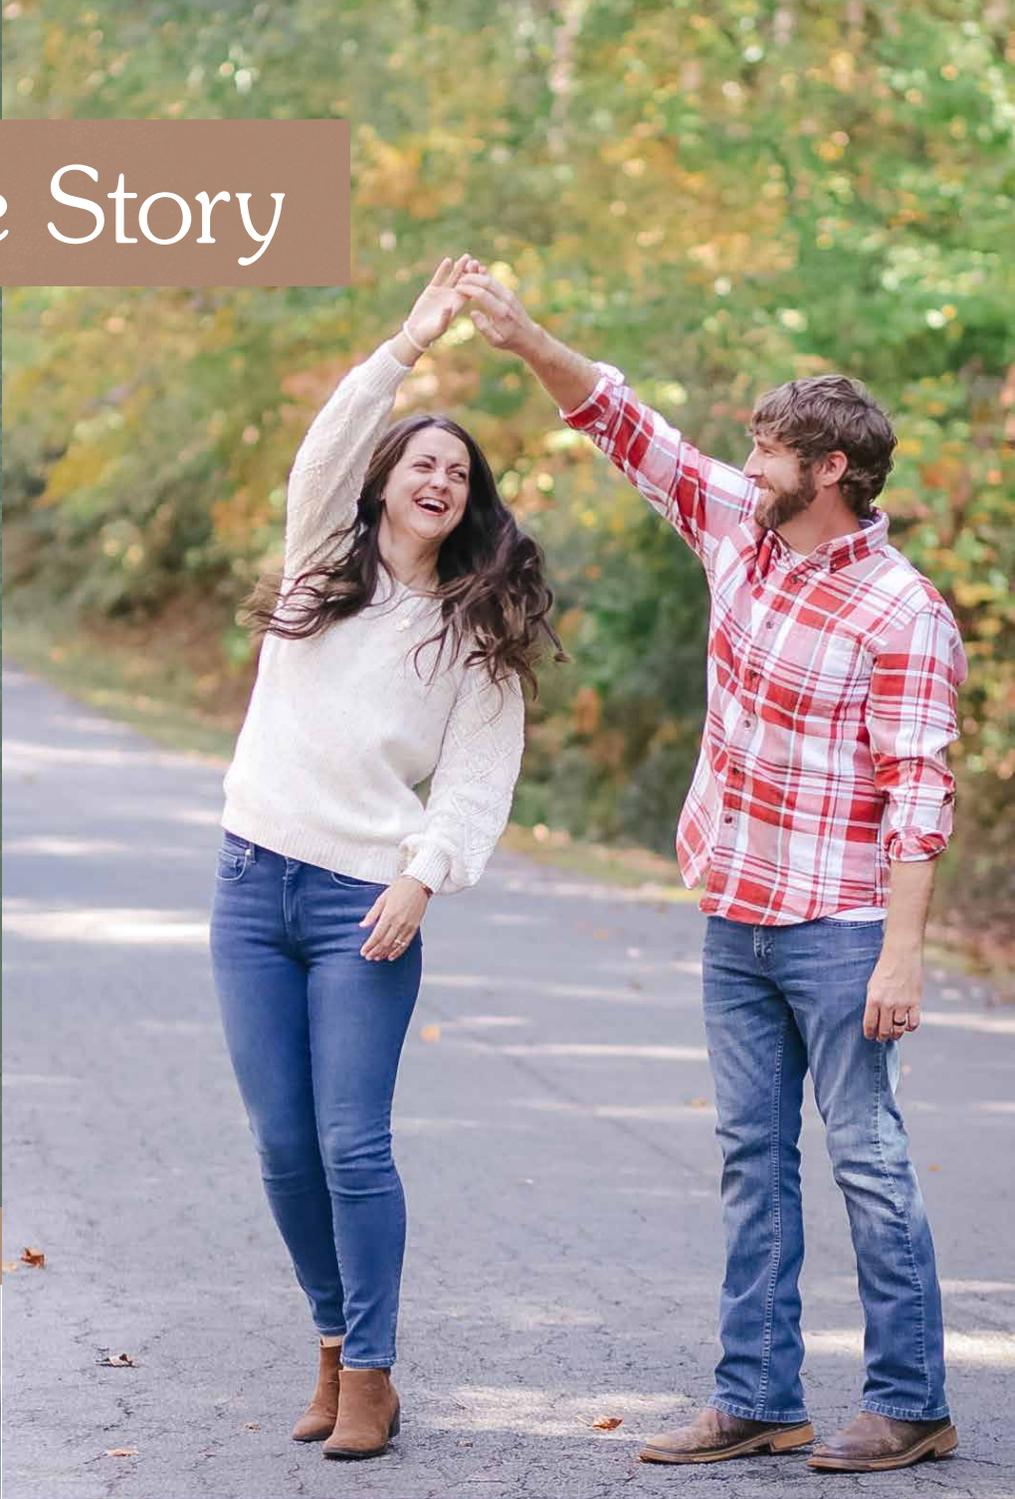

All of our friends and family we have in our circle hold strong to these attributes. This is something we both want to distill in our child to set them up to be a strong successful person full of hope and a future.

Our Values

Our Love Story

Our love story began online, and from the moment we connected, we knew there was something special between us.

AT ST. SIMMONS

Our strong foundation in Christ has been the heart of our relationship, and it's what continues to keep us grounded and connected.

We've shared so many wonderful moments, including the time we went snorkeling in the Bahamas with the beautiful fish and sea turtles! We love meeting friends at church and creating a supportive community around us.

AT THE BEACH

While we've faced some challenges on our journey to parenthood, including infertility, we've come to adoption as a way to grow our family, full of hope and love for the future. Our life now is full of simple, joyful routines, and we're excited to share those moments with a child—spending time with family, or offering love and support in all the ways we can. **We look forward to the adventure of parenthood and building a future filled with warmth and laughter.**

Our Faith

Our faith is the foundation of everything we do. It connects us to each other and guides us in our daily lives. We believe in showing love, kindness, and compassion, and our faith inspires us to serve others. **Whether it's helping a neighbor, volunteering at church, or supporting our community, serving is a core part of who we are.**

About Kaylee

by Dustin

Kaylee is a woman full of determination and hard work ethic. She's very smart. I love how she is very focused on her task at hand in the moment. **She connects so good with the children at church and I'm excited to see her in the role as a mother.** Kaylee loves the challenge of an assignment and she loves increasing her knowledge in the medical field which she works in. She loves spending her time at home with me, our German Shepherd "Ada" and our cat "Ginger". She loves to work in the yard with flowers or just going for an evening walk. Kaylee also loves a good soccer game. She also enjoys time in the kitchen whether it be cooking a great meal or going through the process of canning green beans and pickles.

About Dustin

by Kaylee

I love how hard-working Dustin is—there's no problem he won't tackle with determination and a positive attitude. Whether it's fixing something around the house or working on a project, he always gives his best. **He's also fantastic with kids; he has a special way of making them laugh and feel at ease.** I've seen him connect with children, and his playful nature makes him a favorite with little ones.

Dustin will be great at involving our child in hands-on activities, whether it's getting their hands dirty working on a farm project or exploring the outdoors together. He's excited about being a parent and passing on his love for hard work, the outdoors, and fun to the next generation.

Welcome to

Our Home

We live in a small, close-knit town where there's always something happening, like the farmer's market, festivals or the town's annual fair, which is always a lot of fun. One of the things we love most about our town is how everyone knows each other, and we're able to help take care of one another. Our home is surrounded by farmland, so we're often helping take care of cows and enjoying the peaceful country life.

It's a warm, welcoming place, and we're excited about the possibility of raising a child here, surrounded by community and nature.

ENJOYING COFFEE ON THE PORCH

The best thing about our community is the closeness of everyone.

We all watch out for one another. It's a very safe community. We know most of the people at our local stores and restaurants here in our little town. **It's a great place to raise a child, they will be called by name everywhere they go around here.**

Our Pets

We have a lazy but playful cat named Ginger, and a sweet, energetic German Shepherd named Ada.

DUSTIN AND ADA

KAYLEE AND GINGER

We got Ada when she was just 12 weeks old—now she's 6 and a beloved part of our family. What started as a "just looking" trip quickly turned into bringing home the dog Dustin had always dreamed of: a loyal German Shepherd. Ada is gentle, friendly, and always up for playing with the neighborhood kids. She loves her evening walks and golf cart rides, and she's happiest when she's right by our side. We couldn't imagine life without her—we love her dearly.

Ginger is a 10 year old cuddle-loving cat with a lazy streak. She was found as a tiny kitten in a creek during a storm and has been living the spoiled life ever since. Now happily chunky and proudly unbothered, Ginger prefers naps in the sun and will happily climb your lap for some loving. Don't be fooled by her relaxed demeanor—she knows how to play fetch when the mood strikes. She is deeply loved.

WITH DUSTIN'S MOM ON THANKSGIVING

AT DUSTIN'S COUSIN'S WEDDING

Although Kaylee's family lives in another state, they're always just a text or call away, and we make sure to stay in touch regularly. **Even though we're geographically apart, the bond is strong, and our child will always have a loving, supportive family on both sides.**

Our Loved Ones

Our family is deeply connected, with Dustin's family—his mom, aunts, uncles, and cousins—all living within walking distance. There will always be a family member nearby to play with or hang out, and our child will grow up surrounded by the love and support of a close-knit family. **We're also part of a church community that includes many adoptive families, providing a strong network for our child to bond with and grow up in.**

Holiday Traditions

Holidays in our family are all about spending quality time together and celebrating with loved ones.

We gather with Dustin's family for special meals, where everyone pitches in and we enjoy a big feast with extended family. **Christmas is especially fun**—we love going to see the lights at local christmas light display, creating magical memories together.

For New Year's, Kaylee's family has a tradition of going on a trip every year to a new location, exploring and creating new experiences. It's always a time of bonding, laughter, and making lasting memories.

As Parents,

We aim to instill in them values of kindness, resilience, and empathy. **Above all, we want to raise them with a love for Christ, teaching them the importance of faith, grace, and service to others.** We believe that by following Christ's example, they will grow in love, humility, and compassion.

As parents, we promise to:

- Always listen with an open heart and mind.
- Encourage curiosity and a love for learning.
- Lead by example, showing kindness and integrity in all actions.
- Offer unconditional love and support through both triumphs and struggles.
- Teach the importance of hard work, perseverance, and empathy.
- Raise them with a deep love for Christ, guiding them to walk in His ways and share His love with others.

On Open Adoption

We are open to an open adoption because we believe in the importance of maintaining a connection with birth parents.

We're committed to staying in touch through letters, phone calls, or visits, based on what feels comfortable. We will speak about adoption with love and respect, ensuring our child knows the story of their birth family. We will honor their birth parents in our family, recognizing their role and celebrating the love that brought our child to us. As our child grows, we'll encourage an open heart and provide a safe space for questions about their adoption story.

Interests and hobbies: We love spending time together, whether it's going to the movies, hiking, or hanging out with friends and family. I (Kaylee) enjoy antiques, reading, cross-stitching, and soccer. I love finding unique treasures, losing myself in books, and creating with my hands. Soccer has always been a passion, whether I'm playing or watching. Dustin enjoys hunting, fishing, farming, and supporting Georgia football and the Braves. He's happiest in nature, working the land, and cheering on his favorite teams.

Home: Our home is a charming farmhouse in a peaceful neighborhood, surrounded by Dustin's family—uncles, cousins, and relatives who have lived here for generations. The house has a warm, inviting feel, with lots of history. Outside, we have wide-open views of cow pastures and chicken houses from Dustin's uncles' farm.

Pets: We have a lazy but playful cat named Ginger, and a sweet, energetic German Shepherd named Ada.

Why are you interested in building your family through adoption? After six years of trying to have children without success due to unexplained infertility, we made the decision to adopt. Though the journey has been challenging, we've always known we wanted to build a family full of love. Adoption feels like the right path for us, giving us the chance to share our love with a child and create the family we've always dreamed of. We're excited for the opportunity to nurture and support a little one as we grow together.

Openness to birthparent(s): We understand that this is a lifelong journey, and we see it as a relationship,

not just a one-time exchange. We'd love to stay in touch through pictures, letters, and occasional phone calls, sharing updates and milestones in our child's life. We are also open to visits if that feels comfortable for everyone involved. Our hope is to build a bond based on trust and mutual respect,

Childcare plans: Once we receive placement, Dustin's mother will be a big help with childcare, providing a loving and familiar presence for our little one. Additionally, we plan to enroll the child part-time at a daycare, allowing them to form friendships and socialize with other children.

In Closing

We want to take a moment to thank you for the time you have spent reviewing our profile. We admire your courage, strength, and selflessness in considering adoption for your child.

We understand that this is an incredibly difficult decision, and we want you to know that if you choose us, we will cherish and love your child with all our hearts. **We promise to provide a safe, nurturing, and supportive home filled with love, laughter, and opportunities.** Your child will always know the story of their birth family, and they will grow up surrounded by the values and respect that honor the sacrifice you've made. We would be honored to walk alongside you through this journey, answering any questions you may have and providing you with the peace of mind you deserve. **We are here for you, and we are ready to begin this incredible journey of love and family together.**
